

Assessment by a person authorized to supervise a doctorate

The funding program “Future Mobility Grants”
of the Innovation Campus “Future Mobility”
is a joint initiative of
University of Stuttgart and Karlsruhe Institute of Technology (KIT)

Name of Applicant	
Name of Person Authorized to Supervise a Doctorate	
Address of Institute (KIT/ University of Stuttgart)	

1. RATING OF THE APPLICANT

<Summarize briefly the scientific career of the applicant. Consider the following aspects: Commitment, breadth of specialization, scientific performance, future potential. Do you know the applicant personally or are you in contact with a person at the applicant's institute? How do you rate the quality of one or two publications of the applicant? Please consider the following aspects: Originality, innovative capacity, influence on the further development of the discipline, personal contribution of the applicant (multiple authorship).>

2. RATING OF THE RESEARCH PROJECT

For doctoral researchers:

- It is an integral constituent of the doctorate.
- It extends the subject covered by the doctorate.

Reason:

3. ESTIMATED BENEFIT OF THE STAY ABROAD FOR THE APPLICANT (e.g. including suitability of the host institute chosen)

4. Does the funded stay abroad mainly serve the purposes of KIT / University of Stuttgart and ICM or the personal scientific qualification of the (post)doctoral researcher?

“Purposes of KIT / University of Stuttgart and ICM:“ This is the case, when the funded activity corresponds to the activity the applicant is required to execute under the employment contract with KIT / University of Stuttgart and/or when the work results of the funded activity are needed by KIT / University of Stuttgart. Persons not employed by KIT / University of Stuttgart cannot be funded, if funding mainly serves the purposes of KIT / University of Stuttgart.

“Personal scientific qualification“: Although KIT / University of Stuttgart may profit from the funded activity, this may only be a side effect of the funded activity that primarily serves the purpose of the (post)doctoral researcher’s training and further qualification.

- The stay abroad mainly serves the purposes of KIT / University of Stuttgart.
- The stay abroad mainly serves the personal scientific qualification of the (post)doctoral researcher.
